

We've recently introduced *Systems* to the HSJi platform. *Systems* provides you with essential information on all of England's health and care systems – known as sustainability and transformation partnerships (STPs) and integrated care systems (ICSs). This new feature will help you understand the fundamental challenges of each organisation within its framework quicker – and now more efficiently.

HS

intelligence

- Investigations reveal the strategic priorities of each system and the organisations within it
- Critical data is included which includes leadership information, financial performance and clinical priorities for all systems
- Insight is provided on how NHS providers and commissioners are affected by the growing requirement to work as part of their system
- Segment health systems in Prospect Builder based on your needs

How to access Systems

Systems can now be found as a button on the top navigation menu.

You can still search for individual organisations via the search bar or alternatively via Prospect Builder as before.

To view a system, click on the area of the map. This will open the profile page.

Each profile includes:

- The system overview
- A list of all the organisations included
- All finance and performance data
- Leadership details
- The latest *Investigations* about the system or the organisations within it

As you scroll further down the page, you'll come to a section called "HSJ Investigation". This is where you will find a report on the strategic priorities of the area or the specific organisations within it.

These are exclusive investigations written by our experts after researching board papers and interviewing key decision makers, local leaders and policy makers, as well as data requested via Freedom of Information. To view each piece of exclusive analysis, select 'show more'.

TOTAL PLACE BASED FUNCING ALLOCATION			
£3.4bn	Shov histo	Performance	
NUMBER OF CCGS			
Q4 (Jan-Mar 2019) 3		Q4 (Jan-Mar 2019)	
		82.1%	Show history 💊
NUMBER OF CCG CHIEF OFFICERS		TRUSTS RATED "INADEQUATE" BY CQC (8)	
		Q4 (Jan-Mar 2019)	
		0	
	@ Back	GP PRACTICES RATED "REQUIRES IMPROVEMENT" OR "INADEQUATE"	
		2018/19	
		3%	
		ENERGENCY ADMISSIONS PER 1,000 POPULATION	
		Q4 (Jan-Mar 2019)	
		Q4 (Jan-Mar 2019) 25.8	

Much like existing profiles, detailed Finance and Performance data is included. This allows for a snapshot of all the financial and performance-related health or lack thereof of the organisations. It can be useful in overlaying your own data and validating it.

INTRODUCTIO

Adding a system to your watchlist

Now you can add systems to your watchlist and keep up-todate with the areas that you are interested in.

Simply click "Add to My Watchlist" on the top of the profile and either create a new watchlist or add to an existing list. From here you can decide how frequently you would like to receive an email alert if there has been a change in any of the data-points associated with the system and select if you would like to receive breaking news alerts on this area.

> In additional to adding to your watchlist, you can now filter by systems in Prospect Builder.
